When to Order

For many years we have urged customers to send their orders in as early as possible. Now, at this time when Tulips are in bloom, it is a very simple matter to make your selection. With the varieties before you in bloom it is easy to select your favorite kinds and shades.

You know how disappointing it is to go into a store in the autumn and hear the clerk tell you that he is sold out of your favorite variety and then tries to make you take something "just as good" or "practically the same." That is not good service and is one of the reasons for sending you this offer now. Another reason is that if orders are received by us well in advance of the planting season, we are able to do all clerical work at a time when we are not rushed and you save an extra discount of 5% which is allowed on orders mailed us before July 15th.

It may be of interest to you to know that the family of one of the partners of Wayside Gardens are the largest and best known bulb growers in Holland. It is from this famous old firm that most of our bulbs come.

If you ever go to Europe and would like to visit this establishment, we shall be delighted to give you a letter of introduction which will make you a most welcome visitor there.

If any of the varieties desired by you are not found in this list, let us know and we will gladly send you further information and prices.

It is not necessary that you enclose a cheque with your order. When the order is sent in early, we shall be glad to open a charge account. In this case send bank or trade references. Winter Aconite

These produce before the Crocuses are in bloom, little yellow flowers like Buttercups, about 3 inches above the ground, with settings of fine green, frilled collars which never seem to mind the worst of weather conditions. Parrot Tulip "FANTASY"

The Greatest and Most Worth-while Novelty in Tulips
Introduced in Twenty Years

FANTASY is a "sport" from the well known Darwin Tulip variety, Clara Butt, with the same habits in every way as to color, height, strength of stem, and time of flowering. The flowers are of quaint and beautiful form, the petals being laciniated, having curious excrescences on the outside. We have only a limited supply of this fine novelty which we will offer for as long as the stock lasts at 6 bulbs for \$1.25; 12 bulbs, \$2.25; 100 bulbs, \$15.50.

Hand Picked Mixture of Darwin, Breeder and Cottage Tulips

If you desire a riot of color or so that you may be able to have plenty of flowers to cut from your own garden, we have arranged with our grower to prepare for us a selection of large-flowering, brilliantly colored Tulips suitable for cutting or garden planting. Instead of going to the extra expense of keeping the varieties separate, we have instructed him not to do so. Great care will be taken to see to it that each package contains the greatest variety possible in harmonious colors. There will be Darwin Tulips, Cottage Tulips, Breeder Tulips, Lily-Flowered Tulips, etc. All long-stemmed varieties, excellent for cutting or mass planting. Sold in quantities of not less than 50 bulbs for \$2.00; 100 bulbs for \$3.50; 250 bulbs, \$8.50. (Do not compare or confuse these bulbs with the common cheap mixtures usually offered).

Unnamed varieties of Darwin, Breeder, Lily-flowered and Cottage Tulips blended in lovely colors; with long stems for cutting.

HYACINTHS

No one would have expected that our old Mother Earth contained such entrancing fragrance had not Hyacinths, by some miracle of alchemy, revealed it to us.

They open to greet us before the new spring dawns, if we but give them a share of our garden, and pour out their incense as if in token of their gratitude and thanks for their deliverance from a long imprisonment.

Of importance to us all is the greatly reduced price of Hyacinths. We hope you will take advantage of the opportunity by planting them freely.

Arentine Arendsen. One of the finest whites; long spikes with large, snowy white bells.

City of Haarlem. The finest of the yellows. Well formed trusses of orange-yellow bells.

Grand Maitre. Deep blue with long, compact spikes of large bells, on strong stems.

Lady Derby. Beautiful, clear rose-pink, with large, compact trusses.

La Victoire. Shiny brilliant red, with large, well filled spikes.

Queen of the Pinks. A very lovely pink; trusses broad and large, with good sized bells and strong stems.

Sir Wm. Mansfield. A splendid truss of ruby-violet.

Largest bulbs for forcing and indoor culture are offered at per 12 bulbs, \$1.75; 100 bulbs, \$12.00. A slightly smaller sized bulb is always used for garden planting and may be had for per 12 bulbs, \$1.25; 100 bulbs, \$9.00.
